# EPS Wine Cellar

---

Our Expanded Polystyrene (EPS) Wine Cellar is designed to protect and ensure the integrity of wine bottles from any shocks that may occur during shipment.

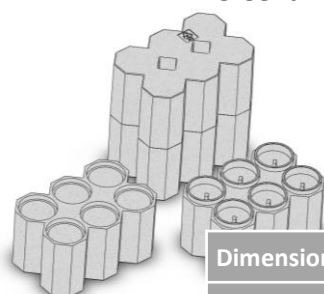

The housing holes are designed to contain the different types of standard bottles: Burgundy, Bordeaux, Rhenish and Champagne.

Designed and made to meet the specific needs of the wine sector, our EPS Wine Cellar definitively solves all problems associated with the safe transport of wine bottles.

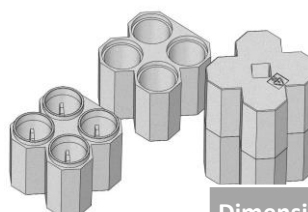

# Available Models

|            |                 |
|------------|-----------------|
| Dimensions | mm 350x234x356H |
| Ø hole     | mm 93           |
| Package    | 16 pieces       |

## Wine Cellar 4 bottles

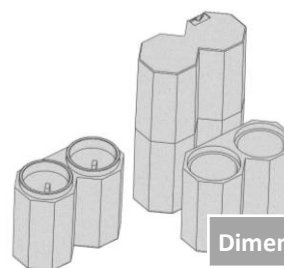

|            |                 |
|------------|-----------------|
| Dimensions | mm 234x234x356H |
| Ø hole     | mm 93           |
| Package    | 24 pieces       |

## Wine Cellar 3 bottles

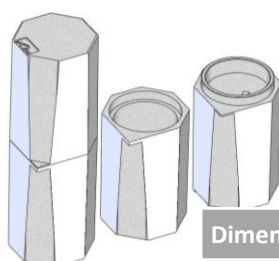

|            |                 |
|------------|-----------------|
| Dimensions | mm 350x117x356H |
| Ø hole     | mm 93           |
| Package    | 32 pieces       |

## Wine Cellar 2 bottles

|            |                 |
|------------|-----------------|
| Dimensions | mm 234x117x356H |
| Ø foro     | mm 93           |
| Package    | 48 pieces       |

## Wine Cellar 1 bottle

|            |                 |
|------------|-----------------|
| Dimensions | mm 117x117x356H |
| Ø foro     | mm 93           |
| Package    | 96 pieces       |

- Available in two colors: white and gray
- They consist of two elements: base and lid, both made in EPS
- The inside of the lid is star-shaped in order to better “lock” the bottles
- **Easily sealable with adhesive tape for packaging, they do not require external cardboard boxes**
- **The view of the EPS Wine Cellar guarantees greater attention in handling by couriers**

# Strenghts

---

## ECONOMICAL

Light and easy to handle, they are designed to speed up packaging operations and reduce shipping costs.

## MODULAR

They can contain and ship up to 6 bottles of different sizes (Bordeaux, Burgundy, Rhenish and Champagne).

## INSULATING

The EPS insulating power of guarantees protection from both high and low temperatures during transport.

## RESISTANT

EPS ensures maximum resistance to compression and impact, as well as being resistant to atmospheric agents.

## ADAPTABLE

They can be used as wine displays, as well as for the safe storage of a significant number of bottles.

## RICYCLABLE

They are 100% recyclable (as they are entirely made of EPS) and reusable an indefinite number of times.

# Integrated Packaging Solutions

---

We realize integrated and customized packaging solutions, able to perfectly meet the specific needs of each customer.

Thanks to the wide range of products and our design capacity, we can meet any packaging requirement, guaranteeing an excellent quality/price ratio.

For more information, do not hesitate to contact us: our specialists are at your complete disposal.

# REACH - ROHS Conformity

None of our articles contain substances classified as SVHC (Substances of Very High Concern) in the current Candidate list of REACH Regulation, in higher quantities than 0.1%. All our articles are HBCD free (Hexabromocyclododecane).

CE

They neither contain any of the substances banned by the Directive 2015/863 / EU (RoHS 2.0 compliance):

- Lead (Pd)
- Mercury (Hg)
- Cadmium (Cd)
- Hexavalent Chromium (Cr6+)
- Polybrominated Biphenyl (PBB)
- Polybrominated Diphenyl Ether (PBDE)
- Di-2-Ethylhexyl Phthalate (DEHP)
- Benzyl Butylphthalate (BBP)
- Dibutylphthalate (DBP)
- Diisobutylphthalate (DIBP)

(DEHP, BBP, DBP e DIBP added as part of the EU DIRECTIVE 2015/863 published on March 31<sup>st</sup>, 2015)

and are free of flame retardant Hexabromocyclododecane (HBCD).
